Alexey Denisov

VP of Technology & Operations | Ex-Co-Founder (\$50M Exit) |
Scaling Cloud, SaaS & Enterprise AI | 250+ Team & P&L Leadership
| Dubai · Remote
Dubai, United Arab Emirates

Summary

I build, scale, and transform technology organizations that drive bottom-line revenue — not just support the business. Over 15+ years, I have led IT, Cloud Infrastructure, SaaS, and Technical Operations across global markets. My core expertise lies in combining P&L ownership and executive leadership with hands-on AI-native capabilities — turning underperforming tech divisions into high-margin, scalable service engines without corporate bureaucracy.

KEY EXECUTIVE HIGHLIGHTS:

- \$50M+ ARR Exit: Co-Founded & scaled Fishance Berhad (Malaysia) from \$73K seed to a successful acquisition. Built end-to-end tech & operations across 14 offshore facilities and a 10+ nationality team.
- 4x Revenue Growth & Margin Turnaround: Restructured two tech divisions (250+ professionals) at Enterprise Energy IT Services, expanding margins from 0% to ~40% and achieving 99.5%+ SLA compliance across all commercial services.
- Operational Excellence at Scale (VK Cloud): Scaled support & technical delivery for a public B2B cloud platform - boosted CSAT from 23% to 68%, SLA to 92%, and reduced inbound ticket volume by 40% through AI search & self-service automation.
- Enterprise AI & Product Building: Hands-on expertise in multi-agent LLM systems, n8n automation, and modern AI coding tools. Built and launched a full-stack SaaS platform (eterapy.com) with Telegram Mini App & payments in under 3 months.

CORE COMPETENCIES: Executive Leadership | P&L & Budget Ownership (\$50M+) | Cloud Infrastructure (IaaS/PaaS) | Digital Transformation & Turnaround | ITIL 4 & DevOps | Multi-Agent AI Systems | Enterprise Architecture | Scale-Up Strategy

Open to VP of Technology, VP of Operations, CTO, or COO roles in SaaS, FinTech, iGaming, or AI scale-ups. Dubai-based | Available for Global Remote & Executive Relocation. Contact: alexey.denisov@me.com | Telegram: @alexey_denisov

Experience

OptiLab AI

Independent AI Consultant & Solutions Architect

November 2025 - Present (10 months)

- Founded an independent AI & Tech advisory practice focused on enterprise process automation and multi-agent system deployment.
- Architected multi-agent AI pipelines (n8n, ComfyUI, LLM agents) for automated document processing, intelligent support workflows, and content automation.
- Designed, built, and launched eterapy.com - an end-to-end AI-driven SaaS platform featuring web, mobile, Telegram Mini App, and automated payment gateways using cutting-edge AI engineering tools.
- Pausing active client work to pursue a senior leadership role (VP of Tech / COO) where AI and automation capabilities can be applied at organizational scale.

Enterprise Energy IT Services

VP of Technology & IT Operations

April 2023 - October 2025 (2 years 7 months)

- Brought in to execute a strategic turnaround of two technology divisions managing 250+ professionals and a broad portfolio of IT products, cloud solutions, and managed services for heavy industry holdings.
- Rebuilt leadership, organizational structure, and ITIL 4-based processes (Incident, Problem, Release, Knowledge, Availability, Service Catalog) across both divisions.
- Grew combined revenue 4x and improved operating margin from near-zero to ~40% by consolidating fragmented service contracts into unified long-term agreements.
- Achieved 99.5–100% SLA compliance across all commercial enterprise services (previously chronic underperformance).
- Built DevOps function from scratch; deployed unified monitoring across all infrastructure services (Zabbix).

Enterprise Public Cloud Platform (IaaS / PaaS)

Head of Technical Support and Internal Services

March 2020 - April 2023 (3 years 2 months)

- Led technical operations and support for a premier public cloud platform (IaaS/PaaS/DBaaS) serving thousands of enterprise B2B customers.

- Drove CSAT from 23% to 68%, SLA compliance from 50% to 92%, and FCR from 5% to 83% — while reducing inbound ticket volume by 40% through self-service portal and AI-powered search.
- Built proprietary cloud tooling from scratch: statuspage, self-service knowledge base, and automated bot-based support workflows integrated into the platform.
- Modernized the full support stack - migrating to Atlassian Jira Service Management and unifying L1/L2 support, partner integrations, and product development in a single instance.
- Developed a paid managed services go-to-market (GTM) strategy with full pricing model - approved by executive C-suite leadership.

Fishance Berhad

Co-Founder & COO (Chief Operating Officer)

July 2016 - October 2019 (3 years 4 months)

Kedah, Malaysia

- Scaled business from \$73K seed investment to \$50M+ annual revenue - company successfully exited via acquisition.
- Owned full C-suite operational scope: Human Resources & Talent Acquisition, Legal & Compliance, Supply Chain & Procurement, Inventory Management, Facilities, and Fleet & Marine Operations.
- Oversaw land acquisition, construction, and launch of 14 offshore production facilities and a headquarters building.
- Built entire technology infrastructure from scratch: ERP (Microsoft Dynamics AX), IoT environmental monitoring systems, transport tracking, distributed data infrastructure, and cross-site network connectivity including radio relay towers.
- Led multinational team across 10+ nationalities including Malaysia, Australia, China, India, and US.

Corporate University of a Top-Tier Financial Institution

IT Lead (Acting Head of IT)

December 2012 - July 2016 (3 years 8 months)

- Joined as the sole IT specialist and built the entire IT function from scratch for one of the world's top-ranked corporate universities - a 37,000 m² campus serving up to 600 simultaneous learners across 38 state-of-the-art classrooms, supporting training for 250,000+ employees.
- Built IT infrastructure from zero: domain environment, VoIP telephony, server virtualization, ERP systems, end-user devices, and full network infrastructure.
- Led technical commissioning and launch of the new campus - coordinating contractors and managing full organizational relocation.

- Managed multimedia and AV infrastructure across 38 classrooms - supporting high-profile international events attended by ministers and heads of state.
- Grew and led a team of 9 IT engineers; managed IT budget growing from ~\$650K to ~\$4M as the organization scaled.

Kaspersky

Premium Support Lead

December 2010 - December 2012 (2 years 1 month)

- Delivered premium IT support to C-suite executives, board members, and international investors across 45 global office locations - maintaining 100% on-time resolution across ~200 weekly requests with zero escalations.
- Reduced incident resolution time by 40% through structured coordination of L1, L2, and application support teams (20+ engineers).
- Promoted from IT Support Specialist to Premium Support Lead within two years.

Education

Geekbrains

Professional Program, DevOps Engineering · (October 2021 - April 2023)

Universitatea Tehnică a Moldovei

Bachelor of Engineering - BE, Information Technology · (2005 - 2010)
